BURIAL OF SOLDIERS IN WASHINGTON .-When a soldier or person in the employ or under the protection of the U. S. Government, dies at camp or hospital, the semor Surgeon not fits the Quartermaster, who provides a suitable coffic, the means of transportation, and burial The surgeon's notification contains (in cases of soldiers only) the name, regiment, rank, company, residence before enlistment, conjugat condition, resid nce of widow, nearest relative or friend, cause of death, age, nativity, date and place of death. All this information is properly entered by the Quartermaster or his cierk upon a journal, and when the burnal is completed, the precise locality of the grave is also register d, with the date. This important duty was placed under the charge of Capt. Edward L. Hartz, A. Q. M., U. S. A. until last December, when he was relieved by Capt. Jas. M. M. ore, A. Q. M. During the time of Capt. Harrz, the burial of soldiers was awarded by contract to the lowest bidder, but since January 1561, the Government has taken entire control, Ind provides the necessary funeral equipa e. The todies are buried at the Old Soldiers' Home burial ground, or at Harmony burial ground. The former cemetery being used exclusively for the bariat of soldiers dying of diseases not contageous while the latter is used for the interment of soldiers and others dying of small pox, and contrabards. There the soldier is turied in a block entirely separate from the portion devoted to the other classes.

Lach grave yard is in charge of a sexton. who superintends the cemetery and has the bodies properly intered. Both grounds are divided into blocks, each block containing a certain number of ranges, and the ranges a The Old Soldiers' Home Burial Ground is

situated about two miles northeast of the city, or about one mile from the 7th street tell gate and the Harmony Burial Ground is about your miles from the city, just northeast of Gales' woods When a body is interred a suitable heacboard is provided, containing the name, Regiment, rank, and company, and date of death of deceased, which was made originally or black walnut, oiled and lettered with white paint, but Capt. Moore is having all the headboards removed and repainted, making them white and the lettering black, which gives a more coverful look to the cemetery, and at the same time render the boards more durable, and the inscriptions more intelligible. Trees and shrubtery are being distributed in the cemeteries, the graves sodded, the walks properly gravelled, and in addition to all these improvements, the buildings and gateways are being put in good condition. Eventually these resting places for the honored dead will be an ors ament to the District, and a credit to the parties concerned. Should any one desire information of a de-

ceased triend it can be obtained at the office of Capt. James M. Moore, A. Q. M., 131 F street.
The "burial record" instituted by Captain Hartz in 1861 is, and always will be, of incateulable benefit to the public and those more directly in erested. It now contains upwards of 10,000 names of soldiers dying in this District and vicinity. Hospitals have been closed, camps have been removed, and were it not for the "mortuary record" the fate of many solciers would be unknown, or at best a matter of doubt. At any time an official certificate of a soldier's death can be obtained at Captain Moore's office, which could not be otherwise

The entire system of burials exhibits throughout an intention on the part of Capt. Moore and Mr.T B. Eskerano F. M. Siringfield, in charge, to do everything conducive to the beneff; of afflicted triends and the secure repose of our noble soldiery.

THE INQUEST .- Yesterday afternoon John H. Johnson, Esq., as deputy coroner, sum-moned a jury of it quest in view of the body of Ezekiel H. Gilbert, the conductor on the street railway who was shot near the corn r of B street and New Jersey avenue on the night of the 12th instant, and died yesterday from the effects of the wound. The following is the dying declaration of Mr. Gilbert, taken by Justice Ferguson on the 15th instant, and read before the inquest as evidence: Deponent said.... On Friday night, the 12th

of February, 1861, about the hour of 12 o'clock, while he was approaching and near to the corner of B street north and New Jersey avenue. on the front of and driving city railroad car No. 45, two men, passengers in the car, put the brake down and stopped the car. Deponent went to the rear of the car and put the brake up; then remonstrated with the men, who were unknown to him, and resumed his position on the front of said car, and started the horses. The two men then became noisy and rude, and this deponent ejected them from the car, but used no more force than was absolutely necessary in doing so. This deponent saith, that he then turned to go to the front of the car, and one of the men fired a pistol at him, the ball taking effect in his back, on the right of the spine. This deponent also solemnly avers, that the person who fired the pistol and shot him was about five feet eight inches high, light hair, were a light cap and long dark sack

Dr. Keasby testified that he attended the deceased from the first. On Sunday night witness thought the condition of Mr. Gilbert was improving. On Wednesday, witness found that he was sinking from copious hemorrhage, accompanied with convul-ions, which defied medical skill, and terminated in death yester-

Four or five other witnesses were examined, but nothing further was elicited by which a clue to the perpetrator of the foul act could be obtained. The jury decided that the said E. H. Gilbert

came to his death by a pistol of gun shot wound, inflicted by some person or persons unknown to the jury. The deceased was a fine looking young man, about 21 years of age, and a native of Philadelphia, where his parents reside. The Railroad Company assumed the expenses of the funeral, provided a hardsome coffin, for the transportation to Philadelphia, for interment, and telegraphed the parents to come to this city to accon pony the body to Philadelphia. The body will be tent away to-day.

DR. E. BUNFORD LIGHTHILL, Of 34 St. Marks Place, New York, author of a "Popular Treatise on Deafness," "Letters on Catarrh," &c., &c., will visit ? # (3 WASHINGTON professionally, and will be at the

ESBITT HOUSE for one week, from Monday, February 29th, until Saturday evening, March 5th, when he can be consulted on Deafness, Catarrh, and all the various diseases of the

Ear, Throat, and Air Passages. Dr. L. is induced to make this visit on account of numerous applications for treatment from parties residing in Washington who are unable to come to New York for the indispensable personal examination. The practice in New York does not suffer any interruption by this visit, as his brother and his assistants are there in constant attendance.

The following testimonials, from well-known parties, are published for the benefit of those who are not acquainted with the doctor's repntation:

Letter from Rev. Dr. John Nott. Professor in Union College, Schenectady. Since I first publicly acknowledged the great benefit which I received from the skillful treatment of Dr. Lighthill, in regard to my hearing. letters of inquiry bave incessantly poured upon me from all parts of the country from parties desiring to learn the particulars of my case, and I am indeed surprised at the number of individuals who are affected similar to the manner in which I have been, and therefore feel it more and more a sacred duty which I owe to those sufferers, to direct them to a proper and reliable source to obtain the benefit they so much covet, and which so many afflicted ones have hitherto sought in vain, just as I had done previous to applying to Dr. Lighthill.

I had had from infancy one very deaf ear which always discharged more or less offensive matter, and was the source of the greatest an-Major J. E. Naylor,
Major J. P. Sherburne,
C. E. Graves,
W. J. Pry,
Dr. D. P. Walhaupter, noyance, and discomfort to me. Last year the other ear also became diseased, and both ears discharged a yellow matter very profuse and highly offensive. My hearing became very much impaired and the discharge produced the greatest debility of body and depression of esting, and Mr. Fry handled the subject in a | spirits. I applied to my family physician and other practitioners without deriving any benefit, and almost despaired of being restored to health, when providentially. I applied to Doctor Lighthill. Under his treatment my ears began to improve at once and continned to do so, until, in a comparative short time, both ears were healed, the discharge removed, and my hearing restored. At first I feared the cure would not be permarent, or that the stoppage of a discharge of so long standing might prove detrimental to my general health, a fear which I find a great many entertain in regard to the removal of discharge from the ears. My experience, however, has proved conclusively that my apprehensions were entirely groundless in both respects, for both ears are as well, and my hear. mg as good at present, as the day I left off treatment, and the stoppage of the discharge, instead of proving detrimental to my health, bas given me the highest elasticity and vigor of body, and a flow of spirits not experienced for a long time previous.

I wish the above statement might serve as a general answer to those interested, but should one or the other desire to apply to me personally, or by letter, I will cheerfully satisfy all reasonable demands upon my time.

I avail myself of this opportunity of again publicly expressing my deeply felt gratitude to Dr. Lighthill, whom I esteem as a gentleman and a man of science, in whom the highest confidence may be placed. JOHN NOTT.

From James Cruikshank, LL. D., Editor N. Y. Teacher, Albany, N. Y. This may certify that, having been afficted during the year 1956 with severe and almost total deafness, and having tried the ordinary medical and surgical aid, under the care of those esteemed as eminent practitioners, I was induced at last to put myself under the care of Dr. E. B. Lighthill. His treatment was brief and successful. I was completely restored, and the cure is apparently permanent. I have all confidence in Dr. L.'s skill and integrity in the diseases he makes specialities.
